<p>I hereby authorize the clinical staff at Boston University (BU) Student Health Services (SHS) to examine and treat me during my enrollment at BU. I understand that there is no charge to see a provider at BU SHS. However, I understand that I am responsible for miscellaneous charges including, but not limited to, lab tests, immunizations, and some supplies. I understand that I am responsible for all health care charges outside of SHS (except that which is covered by my health insurance). I understand that SHS is a unit inclusive of medical, mental health, nutrition, sports medicine, athletic training services, and alcohol and other drug services. I understand that the providers within this organization may discuss my care within the unit to allow for effective care delivery and care management. While we may endeavor to serve all students eligible for care, there may be circumstances when referral to outside providers in the community is necessary. The information on this form is for the use of SHS and will not be released to a third party without your consent, except as necessary to fulfill the responsibilities of SHS or as required or permitted by law.</p>

Personal Checklist- Immunization Requirements

Go to the Health Requirements page at bu.edu/shs/ihr and select the option that best describes you using our guide:

Which Immunization Requirement document are you required to complete?

Immunization Requirement – Athletics

Step 1: Obtain your immunization documentation from your licensed medical provider. Documentation must be in English and only these types of documentation are accepted.

- **The BU Immunization Requirement form (preferred)** – available within the Health Requirements Guide on the bu.edu/shs/ihr page.
- An immunization history form printed off by your provider's office, high school, local health department, a previous university/college, or the U.S. military in English.

Step 2: Enter (type in) the dates of your immunizations into the immunization portal.

1. Go to patientconnect.bu.edu and enter your university username and password.
2. Click "Medical Clearances" on the left menu.
3. Enter (type in) your vaccine dates and/or blood test (titer) dates into the individual immunization options by clicking the "Update" button and select "Done" once completed.

Step 3: Upload the immunization documentation into your online health portal Patient Connect (preferred). Documentation must be in English.

1. Go to patientconnect.bu.edu and enter your university username and password.
2. Click "Medical Clearances" on the left menu.
3. Select the "Update" button to the right of "Immunization Record"
4. Click "Upload" and locate your document(s) on your device.
5. Click the "Looks Good" button then "Save" button to submit your document(s) for review. You will receive an email to your BU account when the document(s) have been processed within 15 business days.

IMPORTANT: If you haven't received all vaccines, you should still submit your immunization documentation and follow these steps. You can receive the remaining vaccines later while on campus by booking an appointment at SHS or attending one of our several campus wide immunization clinics held each semester. Please check our website for updates and events. For more information about the Immunization Requirements, visit: bu.edu/shs/compliance.

IMPORTANT: Immunization requirements are only part of the incoming health requirements process. Please be sure review all requirements, complete, and follow all of the steps within the Health Requirements Guide on the bu.edu/shs/ihr page.

DUE DATE: Submissions are due at least one month prior to your first semester at Boston University. Please allow up to three weeks for your documents to be processed. You will receive an email when your documents have been processed.

MIIS FAQs: Sharing Your Immunization Information

What is the Massachusetts Immunization Information System?

The Massachusetts Immunization Information System (MIIS), also called an immunization registry, is a confidential, web-based system that collects and stores vaccination (shot) records for people of all ages vaccinated in Massachusetts. The MIIS is operated by the Immunization Division at the Massachusetts Department of Public Health and helps you, along with your healthcare providers, keep track of the shots that you have received.

Why is the MIIS important?

The schedule of vaccines that you need to stay healthy and that are required for you becomes more complicated with every new vaccine introduced. Keeping all your shot records in one place helps to make sure that you receive the complete schedule of immunizations.

What information about me will be entered into the MIIS?

Boston University Student Health Services is mandated to report any immunizations we administer to the MIIS. Other information, including address, date of birth, sex, and the provider office location will also be included in the registry to be sure that your records are accurate and cannot be confused with another patient's record. All the information in the MIIS is secure and confidential.

What if I do not want to share my immunization information?

The law requires that immunizations are reported to the Massachusetts Department of Public Health through the MIIS. There is no option to “opt-out” of the MIIS. Your records will only be available to those involved in your care, who have a reason to know about them. The MIIS enables Student Health Services to verify what shots you have received in the past from other providers. If you prefer that your immunization history not be viewed by new providers, you may object to sharing your immunization information.

If you object to data sharing, your immunization information will still be in the MIIS, but only the provider(s) who administered your vaccines and the Department of Public Health will be able to see it. To object to data sharing, you must complete the [MIIS Objection \(or Withdrawal of Objection\) Form](#). If you change your mind, you can fill out the same form to have your immunization information shared in the MIIS.

Please note: you will need to keep track of your records in the event that you receive immunizations from other health care providers.
