

Electric Vehicles on New Jersey State Purchasing Contracts

There are currently no electric vehicles available on State contract due to supply chain disruptions. We will continue to monitor the situation and will update this flyer when vehicles become available.

Purchasing Cooperatives

There are several other cooperative purchasing options for public entities to purchase or lease fleet vehicles without a lengthy procurement process and at a potentially discounted price. The purchasing coops below have had alternative fuel vehicles on contract in the past, and may be an option for purchasing or leasing electric vehicles and/or EV charging infrastructure. The vehicles and equipment offered have been selected through a competitive bidding process, eliminating the need for each individual government unit to go out to bid. Check with your Qualified Purchasing Agent or Business Administrator to learn about the specific rules your local government entity has about using purchasing cooperatives.

New Jersey County and Local Purchasing Cooperatives

- Morris County Cooperative Pricing Council

National Purchasing Cooperatives

- **Climate Mayors Electric Vehicle Purchasing Collaborative** To see the vehicles and other products offered through the Climate Mayors initiative, visit driveevfleets.org. The Collaborative represents unprecedented cooperation among Climate Mayors cities across the country to leverage their collective buying power and accelerate the conversion of public fleets to EVs—sending a powerful signal to the global auto market and helping the United States maintain its commitment to the Paris Climate Agreement. It is a turnkey, one-stop, online procurement portal providing U.S. cities, counties, courts, school districts, state governments, and public universities equal access to competitively bid EVs and charging infrastructure, innovative financing options, and best practices and other forms of expertise.
- **Sourcewell** A special district of the Government of Minnesota does cooperative purchasing nationwide. Sourcewell offers a wide range of vehicles, including heavy duty options, like electric school buses, jitneys, and snowplows. The purchasing coop also offers an extended selection of lightweight electric vehicles, charging equipment, telematics, and idle reduction technology. To use the Sourcewell contracts, the municipality or school district will need to enroll in a free membership program at www.sourcewell-mn.gov.

Electric Vehicles on New Jersey State Purchasing Contracts

NJDEP WILL UPDATE THIS DOCUMENT ON A MONTHLY BASIS. WE RECOMMEND CONSULTING THE NJ TREASURY DEPARTMENT’S MASTER NOTIFICATION FOR THE MOST CURRENT INFORMATION. www.nj.gov/treasury/purchase/mnmaster.pdf

How To Access the State Purchasing Contracts

Go to **NJ START** www.njstart.gov/bs0/external/advsearch/advancedSearch.sdo

- Select **Contracts/Blankets**.
- In the “Vendor Name” field, enter the vendor name listed on the table (see other side of this flyer).
- At the bottom of the page, click on **Find It**.
- At the bottom of the page, click on the Contract/Blanket # listed on the table (see other side of this flyer).
- To see full details about the vehicle: Under “Agency Attachments” click on the file that has the name of the vehicle in the filename.
